

31 July 2024

Dear Parents / Guardians

**RE: STEM EXPO AND E-WASTE DRIVE**

On Tuesday, 13 August 2024, selected students from Grade 8 to 12 will participate in a STEM Expo which will take place in Lekgotleng at Cornerstone College.

The purpose of the Expo is to give students an opportunity to express their creativity in the Science and Engineering fields. The following subjects will participate in the expo: Physical Science, Natural Science, Life Sciences, Technology, Mathematics, Mathematical Literacy, Computer Applications Technology, Information Technology and Coding and Robotics. Entrance to the STEM Expo is free and there will be prizes and certificates for the participants. We are delighted to have both internal and external judges adjudicating on this day.

During "Awesome August", the Grade 11 students, will be running an E-Waste drive in conjunction with Tshwane E-Waste as their Community Outreach Programme. Tshwane E-waste will provide the school with an E-Waste bin to collect old electronic equipment. Parents, students and staff may drop off old or broken devices, such as, laptops, PC's, cell phones and printers for recycling during this month.

For more information about the STEM Expo and E-Waste drive, the students may speak to their subject teachers. Please note that projects will be checked for plagiarism and AI.

Yours in quality education
